Police Break Up Ranks of Defiant Pickets

(By The Associated Press)

Mounted policemen charged into the ranks of 800 marching CIO pickets at the General Electric plant at Philadelphia today and scattered them with swinging clubs.

The pickets ,acting in defiance of a county court-imposed injunction against mass picketing, were split into two sections and herded away from the gates with foot policemen following closely behind. The melee began several hours after a thousand policemen were massed around the strike-bound plant to enforce the injunction.

A little later only two pickets remained. About a thousand pickets assembled at a nearby police station where six strikers were held for questioning.

First reports said only one picket was injured.. He suffered abrasions of the head.

More than 100,000 employes in the Ford Motor company plants were in line for wage increases of 18 cents an hour following approval of a new contract by the company and the CIO United Auto Workers.

The new pact, signed last night by management and union officials granting wage boosts, and also providing company and union security clauses, needed only the endorsement of union locals.

The wage hike, a compromise on the union's original demand for a 30 per cent boost, had been approved last month by company and union negotiators, but other issues had not been agreed upon until last night.

The new scale would increase the average earnings of Ford production workers to $1.39 an hour and the company's other hourly-rated workers will receive $1.37.

A Ford spokesman said that under the maintenance of membership agreement, the union "has undertaken to control its membership and prevent illegal work stoppages." The union said the new contract continues the union shop and dues checkoff provisions.

Measure Would Give Teachers $500,000 Salary Boost

BOISE, Feb. 27 (AP)—A bill to appropriate $500,000 for teachers salary raises was ready for introduction today in the special session of the legislature which already has under consideration an elaborate teachers' retirement plan.

The proposed bill was approved unanimously by the house committee on revenue and taxation—the only democratic controlled committee in the house.

Representative A. R. McCabe (Dem., Benewah), chairman, said the measure would be introduced later today.

McCabe said the bill would appropriate $500,000 directly from the state general fund to the state board of education for apportionment to common schools.

The appropriation would be only for 1946-47.

Some legislative observers saw the measure as a democratic reply to action of the majority of house republicans in placing a teacher retirement bill under their sponsorship. That bill lists 27 of 30 house republicans as sponsors.

Senator Austin Schouweiler (Rep.,-Gooding) said he has ready for introduction in the senate a bill that would appropriate $72,432 for activation of the state tuberculosis hospital at Gooding.

The state attorney general advised Schouweiler his bill could be properly introduced under the governor's call for "tuberculosis hospitalization."

The bill would provide $27,090 for salaries, wages, and $34,342 for current expenses for the rest of the biennium ending June 30, 1947.

Five more routine deficiency appropriation bills were introduced. They make a total of 23 measures before the lawmakers.

Three bills placed before the representatives would appropriate $97,-789 for state hospital south, Blackfoot; $13,305 for continuation of the present department of public health and tuberculosis hospitalization program, and $15,000 for flood control at Eagle island prison.

Two bills introduced in the senate would appropriate $30,495 for state hospital north, Orofino, and $8800 to bureau of motor fuels for enforcement of the motor fuels tax law.

Congress Cuts Drawing Accounts

WASHINGTON, Feb. 27. (AP)—The house appropriations committee today recommended the recapture of $7,112,230,059 in unspent war-time funds and spending authority.

It sent to the house floor for consideration later this week a bill adding that amount to approximately $55,000,000,000 which congress previously had ordered cancelled.

As in previous measures, the army and navy took the biggest cuts. Both services told the committee their mighty air armadas which put Japan and Germany out of the war have dwindled to mere shadows of their former strength.

Commenting on its action in trimming drawing accounts of the armed forces, the committee said "science has revolutionized ways and means of offensive-defensive warfare. We stand at the crossroads of a new era."

Prosecution Rests At Nuernberg

NUERNBERG, Feb. 27. (AP)—The allied prosecution rested its case against 22 top ranking nazi war leaders today after more than three months of hearings before an international military tribunal.

Arguments on legal aspects of the attempt to prosecute six nazi organizations as criminal groups are scheduled for tomorrow. The defense is likely to start Monday.

The tribunal denied von Ribbentrop's plea that Churchill, Daladier and other pre-war allied leaders be summoned as defense witnesses.

The tribunal rejected 22 names of a list of 38 submitted by the former German foreign minister and also trimmed sharply lists submitted by Goering and Field Marshal Kietel.

The tribunal's action led prosecution sources to predict the entire defense case would be completed within seven weeks.

Russian Troops To Leave Iran

TEHRAN, Iran, Feb. 27. (AP)—A soviet embassy official gave assurance today that Russian troops would be withdrawn from northern Iran but Iranian foreign ministry and military observers said there was no apparent sign of Russian evacuation.

An American officer said he believed it was "impossible" for the Russians to withdraw by March 2, the date agreed upon for evacuation of all foreign troops from Iran.

Plane Powered By Diesel Motor

LONG BEACH, Calif., Feb. 27 (AP)—A small monoplane powered by a 235-pound Diesel engine was test flown yesterday for the first time by its designer, Fred A. Thaheld, who claims it is capable of flying for an hour on three gallons of 15-cent fuel oil.

Thaheld kept the plane aloft for about 30 minutes. Afterward he reported its top speed at 130 miles an hour and its cruising speed at 105.

The designer claims the four-cylinder engine is capable of developing three times as much horsepower as a gasoline engine of the same size.

Soldiers Don't Want Wives Overseas

YOKOHAMA, Feb. 27 (AP)—American enlisted men in Japan don't want their wives to join them overseas, Lieutenant General Robert L. Eichelberger asserted today after touring Japan following his return from the States.

But the reason, he hastened to add, is that the men just don't want to stay overseas that long. It's true of the majority of junior officers as well as enlisted men ,he related; "they don't want to stay here, they all want to go home."

DRIVER FINED

Lloyd C. Glick, Opportunity, Wash., a truck driver ,was fined $25 and costs in justice court in Kellogg today on a charge of exceeding the 25 mile per hour speed limit for trucks on highway 10. Frederick McGarry, Spokane, was fined $100 and costs yesterday in Kellogg on a drunken driving charge. Both arrests were made by State Patrolman Landis E. Smith.

Bradley, Stelle Stories Differ

WASHINGTON, Feb. 27. (AP)—General Omar N. Bradley, who has been having some difference with National Commander John Stelle of the American Legion, tried to set the record straight yesterday with a recording machine, but all that came out was a noise.

The machine was used to record a two-hour conference yesterday between Bradley and Stelle, with their aides.

After the closed session a carefully phrased joint statement was issued. But Stelle later gave his own version, and said he believes the veterans' administration, which Bradley heads, now "really thinks the American Legion means business."

At this, Bradley's aides wheeled out the recording machine and invited the reporters, who had been barred from the meeting, to hear just what had been said. But something had gone wrong. The recording turned out to be a lot of noise.

A veterans' administration spokesman then produced this information:

The administration is not modifying its plan to set up contract hospitals for service-connected cases. It is an emergency measure.

It still plans to take over every army and navy hospital that it can staff and is located that it can be used.

"We have not as a result of this conference agreed to make more beds available than we had planned," the spokesman said.

The states are getting "personnel aid" from the agency of veterans, and will get "as much aid as is needed and is permitted by law."

Stelle gace his account of the meeting to a Legion rehabilitation conference.

"There are not going to be any contract hospitals except for emergency," he said. "They are going to utilize every available army and navy hospital.

"I feel certain after we talked today that Bradley had some bad advice in the past."

Stelle told reporters two other points emerged—faster decentralization of administration and aid to states to prevent on-job training abuses.

Racing Bill Lacks Governor's Support

BOISE, Feb. 27. (AP)—Governor Williams made it plain today he did not intend for a pari-mutuel betting bill to be introduced in the special session.

"That is not an administration bill," Williams declared.

"It was my intention that no revenue measures would be needed."

The governor said he included a provision for introduction of revenue measures "only in event it was absolutely necessary and something unforeseen developed."

Calls for Firm Foreign Policy

WASHINGTON, Feb. 27 (AP)—Senator Vandenburg (Rep., Mich.) today called for a vigorously plain-spoken American foreign policy that will match Russia's in firmness.

Reporting to the senate on his work as delegate to the United Nations meeting in London, the chairman of the republican senatorial conference told colleagues the world today is asking "What is Russia up to now?"

Without attempting to answer the question specifically, Vandenberg said that upon the answer may depend the future fate of the world's efforts to keep peace.

He said the United States and Russia "can live together in reasonable harmony if the United States speaks as plainly upon all occasions as Russia does; if the United States just as vigorously sustains its own purposes and ideals upon all occasions as Russia does; if we abandon the miserable fiction, often encouraged by our fellow travelers, that we somehow jeopardize peace if our candor is as firm as Russia's always is; and if we assume a moral leadership which we have too frequently allowed to lapse."

Vandenberg added "the situation calls for patience and good will, but not for vacillation."

Vandenberg said the United States must make plain "there is a line beyond which compromise cannot go." But how can we expect our alien friends to know where that line is unless we reestablish the habit of saying only what we mean and meaning every word we say?"

Truman Calls Conference on Food Situation

WASHINGTON, Feb. 27. (AP)—President Truman said today American food consumption must be reduced to meet acute needs abroad and called former President Herbert Hoover and others to confer on the problem Friday.

The conference, Mr. Truman said, will be asked to work out "an aggressive voluntary program on the part of private citizens to reduce food consumption in this country."

He expressed his views in telegrams to those invited to the Friday meeting. Press Secretary Ross said the voluntary drive was recommended by a cabinet subcommittee which has been studying the food problem. The Friday meeting will be under the auspices of Secretary of Commerce Wallace; Agriculture Secretary Anderson and Assistant Secretary of State Clayton, representing Secretary Byrnes.

The president's action was disclosed shortly after Owen J. Roberts, retired associate justice of the supreme court, called at the White House to pledge his cooperation in the administration's effort to supply food for war-torn countries.

Jury Says Abductor Was Sane

SANTA CRUZ, Calif., Feb. 27 (AP)—In four minutes yesterday a jury decided that Thomas H. McMonigle, 31, was sane when he abducted and killed 15-year-old Thora Chamberlain of San Jose last November.

Unless the glib ex-convict is reprieved or the verdict overturned by the supreme court, he will die in San Quentin's gas chamber.

The same jury had convicted him of first degree murder on the state's representation that he abducted the girl as she left the grounds of the Campbell school, shot her to death and hurled her body into the Pacific ocean from a high cliff. The body has never been found.

McMonigle was glum as the verdict was announced.

Judge James L. Atteridge then turned to the jurors. "You have served as ministers of justice in one of the most dastardly crimes ever committed in the annals of California's criminal history," he said.

More Russians In Manchuria

SHANGHAI, Feb. 27. (AP)—High Chinese military circles in Chinhsien reported today that Russia is landing additional thousands of troops in Dairen and Port Arthur, indicating their intention to remain in Manchuria indefinitely. This was not confirmed officially.

From the Manchurian capital, Changchun, a Russian dispatch quoted the soviet high command as saying all Russian troops would be gone from Manchuria at least no later than the American troops would withdraw from China, and probably before.

Public demonstration in China against continued Russian occupation of Manchuria mounted despite Generalissimo Chiang Kai-Shek's admonition to the nation not to be too concerned.

Chinese military men in Chinsien asserted the Russians were awaiting a chance to obtain economic concessions from the Chinese. One informed Chinese said the Russians, in addition to privileges granted in Manchurian rail line by the Yalta and Moscow agreements, also wanted a part interest in factories along the lines.

Seeks Annulment Of Marriage

Gerald F. Harrington filed suit in district court today against Cecilia Jerome Gladue seeking to have their marriage in Superior July 28, 1945, annulled.

He alleges that at the time of their marriage she already was married to Charles Gladue, whom she married May 12, 1942, and that this marriage had not been dissolved. Harrington also seeks to have a certificate of title issued to him for his 1930 Ford sedan, claiming she obtained the certificate while he was in the armed forces.

Margaret Louise Wenzel filed suit to Lloyd Wenzel on grounds of cruelty. They were married in Wallace December 9, 1942. Vanadias Bailey was divorced from Thomas Bailey on grounds of mental suffering and her maiden name, Godfrey, was restored.

Nazi Armament Maker Caught By U. S. Force

FRANKFURT, Germany, Feb. 27. (AP)—A phantom German armament maker described by an American investigator as "the greatest single power behind the nazi war machine"—a behind the scenes force far bigger than Krupp—has been caught and unmasked by American occupation authorities.

The magnate, whose fabulous $400,000,000 secret industrial empire previously was whispered among a few, was identified by authorities as Friedrich Flick, 62, steel and coal producer whose name was virtually unknown abroad or among millions of Germans.

Full details of dealings, which made Flick one of the wealthiest men in nazi Germany still are under investigation by a treasury and war department de-cartelization team headed by Josef Marcun Jr., New York.

"We consider Flick a greater criminal than Krupp for he grew with the nazi regime and seized more personal economic power than Krupp ever held," Marcun said. He added his team would recommend indictment of Flick as a war criminal at the second war crimes trial.

Atom Bomb Testers Behind Schedule

ROSWELL FIELD, N. M., Feb. 26. (AP)—The army air forces group participating in the atom bomb test is struggling to be ready for the tentatively scheduled date of May 15 but its program "is a month behind and 1000 people short."

In telling this yesterday, Brigadier General Roger M. Ramey, commander of air task group 1.5, hastened to say that the air forces will be ready on time but demobilization and other factors are making it a problem.

Ramey said 3600 men are being assembled and specially trained in reforming the old 58th wing, veteran organization of B-29 attacks on Japan. Of the total, about 2000 will be sent to Kwajalein and Eniwetok, bases from which the A. A. F. will fly its B-29 to drop the atom bomb on the target and a fleet of other specialized craft, including planes carrying instruments and photo planes.

Seattle Papers Increase Prices

SEATTLE, Feb. 27 (AP)—The Post-Intelligencer announced last night an increase in prices in all but the street sale of its Sunday edition, which continues to sell for 15 cents a copy. The Times previously announced a price boost.

The home delivery price of the Times stepped up from $1.15 per month to $1.50 and the Post-Intelligencer from $1.35 to $1.60, daily and Sunday. For daily only, the price increased from 75 cents to $1 for the Times and the same for the Jost-Intelligencer.

Officials of the afternoon Star could not be reached tonight for a statement on price policy.

Blaze Damages Lake City Home

COEUR D'ALENE, Feb. 27. (AP)—City firemen have not made an estimate of the fire, smoke and water damage done yesterday at the large home of Mrs. John P. Gray, situated on top of the hill at Arch and Taylor, overlooking the lake, but it is expected to be thousands of dollars. Cause of the blaze, which broke out between gables in the southeast wing of the home, is attributed to defective wiring.

Mrs. Gray and others in the house said they smelled smoke an hour before the fire was discovered, but a thorough search did not reveal either smoke or fire. Partitions in several rooms upstairs were destroyed and the blaze also broke through the roof. Damage in the lower floor was caused by smoke and water which seeped through the ceiling.

Canada comprises more than 28 per cent of the total area of the British Empire.

CENTENNIAL

Explains the U. S. Flour Order

President Truman has ordered all flour millers to produce more flour from the same amount of wheat.

So, in common with other millers, Centennial will now mill only "80% extraction family flour." While this is good flour, it is not equal to the fine quality all-purpose flour you have always found under the Centennial Silk-Sifted Flour label. It is not so white, so uniform in color, so fine in texture. It will not bake bread so white or so light. It will be marked on the label as Centennial 80% Extraction Family Flour.

But, because this flour will not meet Centennial's highest quality standards, it will not bear the Silk-Sifted label.

Only when Centennial Silk-Sifted quality can be resumed, will the Silk-Sifted label reappear at your grocer's.

NEW YORK, Feb. 27. (AP)—Support came into the stock market today to send leaders ahead fractions to three points but the movement was nervous and some gains were trimmed.

Belief that the list was entitled to a technical comeback after the sharpest break in eight years and the presence of idle money in many accounts following recent profit-cashing were credited by brokers with producing a measure of demand for offerings.

Continued skepticism over production and earnings prospects acted as a brake on sentiment.
